Rep System Crane Service, nice to meet you!

Many years of professional experience 📍

Since 2010, Rep System Crane Service Ltd. has specialized in providing services for various types of lifting and conveying equipment, and its owners have over twenty years of professional experience.

Professional service available 24/7 throughout Israel 📍

The company is located in the north of Israel, in the Afula area, and provides services throughout Israel, with full availability, 24/7, including weekends, while providing telephone assistance for troubleshooting.

Professional teams 📍

Each team includes at least a certified mechanic and an electrical engineer, or more if necessary. In addition, there are teams of subcontractors, which also include certified locksmiths, mechanics, and electricians.

An advanced workshop 📍

We operate a workshop for the repair and overhaul of spare parts.

A variety of services 📍

We provide services for lifting equipment, including Troubleshooting Breakdown, periodic maintenance, repairs at the customer's site or renovations in our workshop, as part of a service call or according to the framework of service agreements. We also provide consulting services, planning, accompaniment and technical support for projects in the field of lifting equipment.

A selection of types of cranes 📍

EOT cranes, Suspended, single-girder, double-girder, jib cranes, gantry cranes, and more.

Comprehensive solutions for cranes and lifting facilities 📍

Light and mobile cranes, electric hoists, manual hoists, cable winches, end carriages, power supply; festoon and conductor rails.

Availability of spare parts 📍

We hold a large inventory of spare parts for all types of cranes available in Israel, original spare parts from crane and lifting devices manufacturers, assist in locating spare parts if necessary and provide spare parts to the company's technicians and its customers.

Service and installation routes are tailored to customer needs and can be updated 📍

- Performing proactive preventive maintenance according to the type of crane and workload.
- Maintenance (without an agreement): Troubleshooting, provide a price quote and carry out the repair.
- Maintenance (without an agreement): Repair defects according to Ministry of Labor surveys, according to Occupational Safety Orders.
- Routine maintenance – A maintenance agreement.

Strict quality control 📌

The company is subject to ongoing and strict engineering quality control. In addition, the company produces an internal quality control report at the end of each completed work carried out by our technicians and representatives, for the purpose of control, monitoring, and improvement.

Among our customers 📌

Israel Railways, Prigat, Ackerstein, Packer Shefi, Mekorot, Neuman Construction Steel Industries Group, Plow Metal, Elkayam Metal Industries, Adama Group, and a variety of private customers.

Activity with a variety of manufacturers 📌

SWF, DEMAG, STAHL, ABUS, Brima England, Street Crane, Planeta, Conductix-Wampfler, Vahle, Galarza, and more.

We are official importers of GH (Spain).

Our credo 📌

We believe in providing professional service without compromise, our professional teams always work to provide fast and reliable service, and personal attention.

We are pricing projects fairly and adapting the best technical solution according to the needs of each customer.
